TAKE AIM.

*On-line Sports
Video Résumés*

What is it?

eSportScout is an on-line video résumé service for athletes wanting exposure that is “always on” for scouts.

We assist players by making their information available to any scout, anytime, anywhere.

The goal of eSportScout is to minimize the need for mailing videos and résumés to scouts.

We ease the burden on scouts. They simply log-on to eSportScout when it is convenient for them and review your highlights and look at your stats.

Our Digitally Networked Athlete™ (DNA) presentations allow athletes to quickly and concisely show their ability on-line at the convenience of who ever wants to see them.

In addition to video, we will post statistics and biographical information for the player.

Furthermore, we create an easy way for the athletes to be contacted with their own eSportScout email address.

By providing this email link, we can forward the requests to any existing email address and maintain the privacy of the athlete.

Video Highlights and Profile

For your on-line video highlights and profile, we suggest the following:

Video

- Timed Sprints
- Vertical Jump
- Position plays
- Highlights from existing game videos

Profile

- Biography
- Statistics
- Height & Weight

- Academic Information
- Awards and recognitions

36 Cents Per Day

The investment is \$9.95 per month for an annual subscription or less than 36 cents per day.

Each package includes:

- Video highlights (two versions)
 - High Bandwidth
 - Low Bandwidth
- Personal web page
- Statistics
- Biography
- Photograph
- eSportScout email address
- 12 Months Hosting
